

## CTU Teams Up with IP3 to Offer IT Security Seminar

**Colorado Springs, CO (September 19-20, 2006)** - Information technology professionals and corporate executives facing critical security issues are urged to attend a two-day seminar offered by IP3 Inc. and hosted by Colorado Technical University.

The seminar will be 8:00am-4:30pm, **September 19-20, 2006**, at the CTU campus, 4435 N. Chestnut St. in Colorado Springs. Seating is limited, so pre-registration is required. To [register](#) for the seminar visit: [www.ip3seminars.com/s2r.htm](http://www.ip3seminars.com/s2r.htm). Cost of the seminar is \$895. Continental breakfast and midday snack will be provided by CTU.

IP3 Inc. is a strategic research and education company with extensive experience in technology sales, marketing, training and seminar development. Its President and CEO, Ken Kousky, will present the seminar sessions, including such topics as:

|   |                             |
|---|-----------------------------|
| • Firewalls and perimeter defense         | • Wireless deployment       |
| • Internal theft of intellectual property | • Ever-more-invasive spam   |
| • Crypto key management                   | • Sarbanes-Oxley Compliance |
| • Securing VoIP                           |                             |

IP3's vision is to assist individuals and organizations across North America and the world in the assessment of their information technology security needs and provide them with integrated, cost-effective solutions that focus on knowledge, skills and performance.

Colorado Technical University's curriculum is designed to support some of today's top careers in computer science/information technology, visual communications, criminal justice, business administration, health science, business/management and engineering/technology. CTU offers day, evening and Saturday classes at its campuses in Denver, Colorado Springs and Sioux Falls, South Dakota, as well as an online campus offering distance learning. Program availability differs by location.

Colorado Technical University has been recognized by the ISSA as 2004 Organization of the Year and as a Center of Excellence in 2005. CTU is an institution of higher learning that seeks to provide career-oriented education by teaching applied industry-current programs. CTU offers a wide range of undergraduate, graduate and professional certificate programs with curriculum designed to support some of today's leading career fields.

Colorado Technical University is accredited by the Higher Learning Commission and is a member of the North Central Association 30 N. LaSalle St., Suite 2400, Chicago, and IL 60602, 312-263-0456 - [www.ncahigherlearningcommission.org](http://www.ncahigherlearningcommission.org). CTU was founded in Colorado Springs in 1965 and has been regionally accredited since 1980.
