IP3 and Illinois Institute of Technology Partner to Host the First Annual VoIP/Wireless Security Conference Dedicated Exclusively to Information Security

Leading communications and wireless executives, along with experts from academia and government, will converge in Chicago to address attendees at the first annual VoIP and Wireless Security Conference, August 1-2, 2005, at the McCormick Tribune Campus Center located on the main campus of the Illinois Institute of Technology, 3201 S. State Street, Chicago.

This informative and educational 2-day event will provide a broad perspective and offer attendees insight into key industry issues from executives and companies providing technology solutions. The conference features exhibits, panel discussions, seminars, executive workshops, and will include presentations on broadband, converged wireless, infrastructure solutions, and enterprise networks.

The VoIP/Wireless Security Conference targets a broad range of datacom professionals from industry and government as well as systems resellers, integrators, VAR's, ISP's, system and security architects, system auditors and policy analysts.

Join hundreds of security professionals to learn about the latest VoIP technologies and trends in security. To view the agenda and to register for the 2-day conference, please visit: <http://www.voip-wifi.net>

For further information contact: IP3 at 800-473-5181 or email: info@voip-wifi.net
